Version Control and Infra Tech
Maven, Apache Ant, Git, Mercurial, TeamCity, Jenkins, Sonar, Microservices, Docker, Kubernetes, Apache Kafka

Experience

OpenText

Lead Software Engineer
03/2023 – Present • 2 years 7 months — Bengaluru, India

Senior Software Engineer
06/2018 – 03/2023 • 4 years 10 months — Bengaluru, India

Wipro Technologies

Software Engineer
06/2016 – 06/2018 • 2 years — Bengaluru, India

Spaneos Software Solutions

Software Engineer
07/2013 – 06/2016 • 3 years — Bengaluru, India

Education

Bachelor of Engineering
62.13%
North Maharashtra University
06/2009 – 05/2012
Jalgaon, India

Diploma in Information Technology
72.60%
Maharashtra State Board of Technical Education University
06/2006 – 05/2009
Mumbai, India

Secondary School Certificate (SSC)
76.13%
Maharashtra State Secondary & Higher Secondary Education University
2006
Mumbai, India

Achievements

Application Certification Completion (Recognition)
OpenText — 31/05/2024

AS4 CEF common profile Certification awarded to BizManager, which was a long-awaited certification, signifies the company's proficiency in adhering to the AS4 standards, ensuring compliance with regulatory requirements for our partners, customers, and stakeholders.

Knight of Quarter (Award)
Wipro Technologies — 30/11/2017

Performance improvement to search module development in Way2Go product, delivering breakthrough 45% performance enhancement.

Contribution

Open-Source contribution
Password Management App — Native Android Application

Professional-grade security application integrating KeePass library with intuitive Material Design interface, officially recognized on project platform.

Projects

BizManager
06/2018 – present

Information Management domain

    A B2B application that allows customers to configure and manage file transfers between applications using several protocols, such as PEPPOL, AS4/AS2, FTP, SFTP, HTTPS, and SMTP, as well as produce reports and audit transactions involving file transfers. Administrators can manage users, services and gateways, password policies, and download service logs. The application provides Administrator users and non-admin users whose access can be defined according to their role.

Role:

Lead Software Engineer • 10 members

Responsibilities:

Mentoring team members and holding developer meetings
Removing blockers and facilitating regular technical touch-point meetings with other teams.
Enhanced monitoring module to identify crash and performance related issues.
R&D on new frameworks & features to enhance product capabilities.
Design solutions for complex change requests (CRs) and develop new modules.
Responsible for production bug troubleshoot and fixes.
Leading demos.

Way2Go
06/2016 – 06/2018

Travel & Expense domain

    A B2B product to ease the corporate organization's travel and expense division with ERP and Global Distribution System (GDS) integration. The product also features the data analysis portal to provide various ways to highlight the travel and expense reports. Large and small organizations can easily track business travel and expense anytime and anywhere.

Role:

Developer (Team Member • 12 members)

Responsibilities:

Analyze and discuss the business requirements.
Responsible for the feature development and implementation.
Responsible for bug fixing and troubleshooting.
